

2 mobile home parks will be allowed on Spanish Fork bench

SPANISH FORK — Two mobile home parks will be allowed on the east bench, the City Council has decided following a public hearing.

That overturned a decision by the city Planning and Zoning Commission, which voted earlier to deny the zone change because it did not meet the city's master plan for the southeast section of the city, City Councilwoman Thora Shaw said.

"The sections that have been set aside for trailer parks are located where there is really not a lot of land where they could be developed. There's really not many places zoned for mobile homes anywhere around in the county," she said.

Several Spanish Fork residents told the City Council of their opposition to the zoning changes.

The first site is 15 acres between U.S. 6 and I-15 about two miles west of Oak Crest Inn. It will support 85 trailers, developer Dan Mehr said.

The second site is at about Sixth East and 28th South and is being developed by Allan Thomas. The zoning change here affects 23.5 acres, which will be developed for 146 mobile homes, Thomas said.

Mayor Enoch Ludlow said he understands residents' concerns about locating the two mobile-home parks near their neighborhoods. "I realize that mobile homes are a potential problem, especially if we put a bunch up there. But we need housing for these children we keep producing, and mobile homes are an answer to that for those who can't afford a home," Ludlow said.

Resident Rod Lowder agreed: "Our city needs a mobile home park for people who can't afford homes. The people who buy these mobile homes will make a good asset to the community."
